# Who We Are

Corevia Holdings sits where technology meets execution. We provide the specialised frameworks, digital capability, and technical oversight needed to deliver complex initiatives across Africa's most demanding markets.

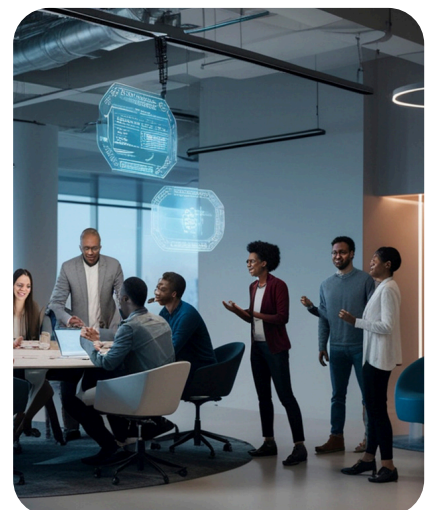

From advanced systems implementation to infrastructure and energy projects, we close the gap between strategic vision and operational reality — structuring, coordinating, and delivering at every stage.

Behind every Corevia initiative is an elite network of global technology firms, infrastructure specialists, and logistics leaders — each selected for their proven ability to deliver in Africa's most demanding environments. We don't just coordinate partners; we integrate them into a single, aligned force.

## Your Trusted Partner for Project Delivery

By combining world-class digital and technical capability with deep regional relationships, we bridge the gap between private enterprise, institutional capital, and public stakeholders — turning complex, high-potential opportunities into scalable, sustainable realities.

# What We Do

Corevia Holdings sits where technology meets execution. We bring the technology expertise, specialised frameworks, and hands-on technical oversight to navigate Africa's most complex markets and deliver initiatives that perform.

From IT systems deployment to infrastructure and energy projects, we bridge strategy and execution – at every stage of the journey.

## Our Core Services

- ✔ Digital Transformation & Integration
- ✔ Resource Sector Optimization
- ✔ Supply Chain & Logistics Integration
- ✔ Advanced Systems Implementation
- ✔ Multi-Stakeholder Orchestration
- ✔ Advisory & Project Enablement

## Building for Longevity

Technology changes fast. Africa's opportunity is now. By integrating digital capability with infrastructure depth and sector expertise, Corevia builds more than projects – we build the foundations that economies grow from. Every initiative we touch is structured for longevity, scalability, and lasting impact across the continent.

# Why Choose Us

Selecting a technology and development partner in Africa requires more than technical skill – it demands a sophisticated understanding of the continent's unique socio-economic landscape. Corevia Holdings offers a rare synthesis of global technology capability, international operational standards, and deep regional intelligence.

We bring the stability, foresight, and strategic depth to navigate complexity, mitigate risk, and ensure that every solution we deliver performs not just at launch – but for the long term.

## The Corevia Advantage: Excellence in Execution

What sets Corevia apart is where we operate – at the intersection of advanced technology, deep regional expertise, and high-level strategic relationships. We align investors, governments, and private enterprises around a single outcome – initiatives that are commercially sound, digitally enabled, and built to last. We don't measure success at launch. We measure it over decades.

Proven Regional Intelligence

High-Level Strategic Network

International Execution Standards

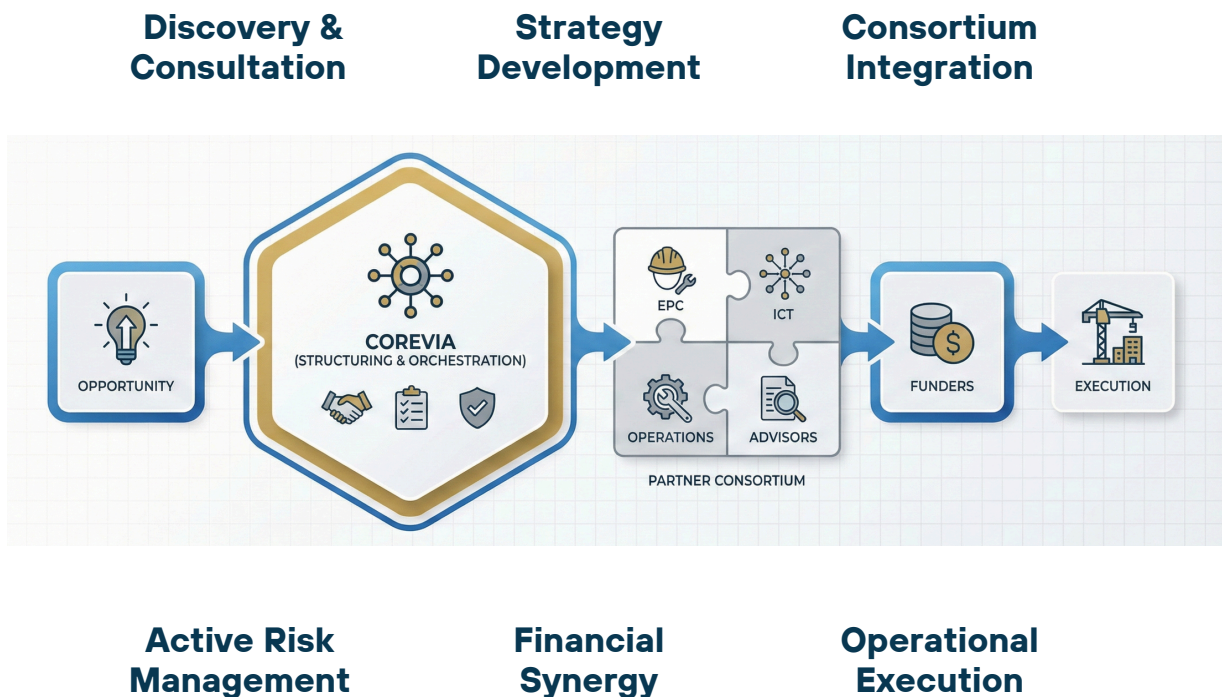

Long-Term, Sustainable Value Creation

# Our Process

Corevia's methodology is a structured, end-to-end framework designed to transform ambitious concepts into operational realities. Acting as central orchestrator, we bring together ICT, EPC, operations, and advisory partners into a coordinated consortium – aligned around a single outcome: successful execution.

By integrating technology partners, funding structures, and operational capability under one coordinated framework, we eliminate the fragmentation that derails complex projects – delivering role clarity, capital alignment, and seamless cross-functional performance from inception to completion.

At Corevia, our process is defined by the three core pillars of collaboration, role clarity, and reduced risk exposure. By managing the complex dependencies between specialized technical partners and financial backers, we remove the friction often found in large-scale developments. This systematic approach ensures that our initiatives are not only delivered on time but are built to provide sustainable, long-term value for Africa's evolving markets.

# Our Focus Areas

Corevia Holdings operates at the vital intersection of technology, infrastructure, and natural resources. We focus on high-impact sectors where strategic integration, digital capability, and deep execution expertise combine to drive modern economic progress across Africa.

**Digital & Technology Solutions**

**Engineering & Technical Solutions**

**Infrastructure Development**

**Project Enablement & Finance**

**Energy & Resource Projects**

**Trade & Commodities**

We view these sectors as a unified ecosystem rather than isolated industries. Through rigorous orchestration and a commitment to role clarity, Corevia builds the robust frameworks necessary for economic stability across the continent.

# Let's Work Together

Corevia Holdings invites you to join an ecosystem built on transparency, expertise, and shared success. We look forward to exploring how our structured orchestration and technology-led delivery can help you achieve impactful, sustainable results across Africa's most dynamic markets.
